

Invitation to the ScorePP international dissemination workshop on Evaluating Source Control Options for Reducing Emissions of Priority Pollutants

More information: scorepp.coordinator@env.dtu.dk

We are writing to invite you to our International Dissemination Workshop on Evaluating Source Control Options for Reducing Emissions of Priority Pollutants. The workshop is taking place at DTU facilities in Kgs. Lyngby (Denmark) Tuesday and Wednesday 2-3 February 2010.

Aim

The aim of the workshop is to bring researchers, practitioners and regulators together to discuss the current state-of-the art with respect to emission control strategies for urban pollution. For further details on the workshop and the ScorePP project, please see the attached flier (ready to print on both sides in booklet format) or go to www.scorepp.eu.

Contents

The workshop have 15 presentations mainly originating from the ScorePP project, but also a few presentations from the recently finished SOCOPSE project (both projects funded by the EU 6th Framework Programme). For further details, please see the attached preliminary programme (in A4-format). During the workshop there will be a poster session, so you are encouraged to bring your poster.

Registration

Registrations will be appreciated as soon as possible. *Hotel rooms have been pre-booked until 18 January 2010*, see the attached flier and hotel booking form.
